

Sargent and Greenleaf Announces Government-Approved High-Security Access Solution, Partners with DAV (Disabled American Veterans)

Government-Approved Security Meets ADA Accessibility with Introduction of 2890C ABR

NICHOLASVILLE, Ky., September 15, 2022 – Sargent and Greenleaf, a global leader in protecting people and assets at home, at work, and in communities around the world, is pleased to announce a new, government-approved innovative technology. The 2890C Automatic Bolt Retraction (ABR) solution combines life safety with ADA access for individuals with disabilities in the secure entry space.

Sargent and Greenleaf is committed to serving individuals with disabilities, especially those who have served our country, and is a proud partner of DAV (Disabled American Veterans), a non-profit organization that provides a lifetime support for veterans of all generations.

In addition to meeting the government's ten FF-L-2890C lock configurations for government or US military applications, the 2890C ABR also allows for the integration of critical life safety technology, pairing S&G's ADO solution with badge readers or other RFID-compatible components to allow secure touchless access and control for the disabled. Compatible with both GSA-approved combination locks, the S&G 2890C provides the highest level of security to sensitive compartmented information facility (SCIF) environments used by U.S. agencies, DOD contractor sites and military bases.

"For more than 160 years, S&G has led the lock and locking systems industry, becoming one of the most trusted names in the world for global security," said Chris Casazza, Chief Executive Officer, S&G Family of Brands. "We are proud to offer the first government-approved ADA compliant solution for high-security access – it addresses a vital need and demonstrates our commitment to bring innovation to address the changing needs in global security."

"DAV is grateful for S&G's commitment to ensuring veterans can lead fulfilling lives with respect and dignity," said Marc Burgess, DAV National Adjutant and CEO. "We appreciate their continued dedication to our mission and the veterans we serve."

About Sargent and Greenleaf

Sargent and Greenleaf (S&G) is a leading manufacturer of high security locks and locking systems that protect people and assets around the world. Over the last 165 years, our high-security locks and industry expertise have earned trust from governments, banks, pharmacies, businesses, and safe owners of all kinds to meet their security needs and counter emerging threats. The S&G portfolio of high-quality electronic and mechanical locks are used in a wide range of applications including gun safes, commercial safes, ATMs, vaults, and highly sensitive SCIF environments. The S&G family of brands offers a unique, comprehensive portfolio of lock and door solutions to serve a wide range of security needs across industries and applications. Through our trusted brands Delaney Hardware, Sargent & Greenleaf, and Premier Steel Doors & Frames, we offer businesses and homeowners high-quality door hardware and fixtures, commercial grade doors and hardware, and multi-family and residential security solutions. Together, our mission is to make the world more secure today and in the future. To learn more about Sargent and Greenleaf, please visit www.SargentAndGreenleaf.com

About DAV

DAV empowers veterans to lead high-quality lives with respect and dignity. It is dedicated to a single purpose: keeping our promise to America's veterans. DAV does this by ensuring that veterans and their families can access the full range of benefits available to them; fighting for the interests of America's injured heroes on Capitol Hill; providing employment resources to veterans and their families and educating the public about the great sacrifices and needs of veterans transitioning back to civilian life. DAV, a nonprofit organization with more than 1 million members, was founded in 1920 and chartered by the US Congress in 1932. Learn more at DAV.org.
